

Scotia-Glenville Central School District Medical Certificate of Physical Limitations

New York State Education Regulations state that schools must provide physical education activities for all students. Should a student be temporarily or permanently unable to participate in the regular program of physical education, a program must be developed to meet the needs of that student. A certified adaptive physical education teacher is on staff.

Scotia-Glenville Central School District requires that this form be completed for any student who is temporarily or permanently unable to participate in the regular program of physical education. Individual medical certificates of limitations must indicate the area of the program in which the pupil may participate.

Providers please complete the section below as they apply to:
